### ASX MARKET RELEASE

## Integrated Research earnings update for 1<sup>st</sup> Half FY08

**Sydney, January 17, 2008** – Integrated Research (ASX:IRI), a leading developer and provider of systems and applications management software for high-availability computing environments, today provided profit guidance for the six-month financial period ending December 31, 2007.

In order to keep the markets fully informed, the company wishes to advise that profit after tax will be in the range of \$3.7 million to \$4.1 million, subject to finalisation of the half-year financial report in accordance with the Australian Accounting Standards and the audit thereof. This compares to \$1.9 million for the half-year period ending December 31, 2006.

The increase in profit after tax is attributed to strong sales growth in the company's PROGNOSIS range of products for HP NonStop, IP Telephony and Windows, UNIX, Linux.

- ends -

### About Integrated Research

[www.prognosis.com](http://www.prognosis.com)

Integrated Research – the people behind PROGNOSIS - is a publicly listed company with a 20-year heritage of providing performance monitoring software for business-critical computing and IP telephony environments.

The company services customers in more than 50 countries through direct sales offices in the USA, Europe, and Australia, and via a global channel-driven distribution network.

Customers include the world's largest bank, telecommunications company, stock exchange and computer hardware manufacturer.
